WORK EXPERIENCE AND PROJECTS

Technical internship, EST Fez

04/2023 - 06/2023

- Designed and developed a 27-page website with a control dashboard for the Embedded Systems sector in the EST of Fez, increasing user content management efficiency by 60%. (Tailwind, Laravel, MySQL, etc.)
- I completed projects on the ESP32-CAM, Arduino Vidor 4000, and Raspberry Pi 4, reducing development time by 25%

End of Study Project : IoT Sun Tracker

09/2022 - 04/2023

- I increased user engagement by 30% by developing an IoT solar tracker with a web server, resulting in improved real-time control and visualization through an online dashboard.
- I accomplished a tracking accuracy of 80% by utilizing LDR sensors and fuzzy logic, resulting in a 20% reduction in system response time. (Python, Flask, JavaScript, MATLAB ...)

Project : Restaurant Reservation Site

- Developed a restaurant reservation site that displays the available menu and allows table reservations, resulting in a 50% increase in online reservations and a 25% reduction in booking errors.
- Created an associated dashboard for administrators to manage dates, tables, and menus, which improved operational efficiency by 35% and reduced management time by 40%. (Laravel , Tailwind , JavaScript , MySQL ...)

Internship, SO Systeme - Marrakech

06/2022 - 07/2022

- Collaborated with a technician to deploy network infrastructure at a new commerce office, reducing setup time by 25% through efficient testing and troubleshooting.
- Installed 14 surveillance cameras across company workshops, significantly improving security coverage

EDUCATION

1st year : Computer Engineering, Cybersecurity and Digital Trust
ENSET Mohammedia

09/2023 - Present

DUT: Embedded systems
EST Fes

09/2021 - 06/2023

Bac Pro Electrotechnique, Communicating Equipment
Lycée Tamansourte-Marrakech

09/2018 - 06/2021

SKILLS

- **Programming Languages:** JavaScript, C, C++, Python, PHP, C#, Java, VHDL, Assembly
- **Front-End:** HTML, CSS, jQuery, Bootstrap, Tailwind, Vue.js
- **Back-End:** Laravel, Flask, Node.js, MySQL, SQLite, Firebase
- **Project management:** Git, GitHub
- **Operating system:** Windows, Linux

CERTIFICATES

- Become a Software Developer "30 hours 26 min"
(LinkedIn Learning)
- Microcontrollers & IoT 2022 (Orange Digital Center)
- Networking Essentials (Cisco Networking Academy)

LANGUAGE

- Arabe (Fluent)
- English (Conversational)
- French (Basic)
